Les coloris que vous choisirez sur le nuancier ThermaCote[®], peuvent avoir une infime différence suivant votre support.

Le présent document n'as qu'une valeur indicative, informative et par conséquent non-contractuelle.

Veuillez toujours valider vos choix définitifs avec le nuancier original ThermaCote[®].

Nuancier
ThermaCote[®]

ThermaCote® est une barrière thermique haute performance, qui incorpore la technologie céramique pour empêcher le transfert de chaleur ou de froid et minimiser le gain de chaleur solaire et radiante.

ThermaCote® is a high performance thermal barrier, which incorporates ceramic technology to prevent the transfer of heat or cold and minimise solar and radiant heat gain.
